
$(x, y, z) \rightarrow (u, v)$?

Vectoren a, b, p input
Samen met textuur.

$$\begin{cases} (p_x, p_y, p_z) \\ (a_x, a_y, a_z) \\ (b_x, b_y, b_z) \end{cases}$$

$$\boxed{(x, y, z) = (p_x, p_y, p_z) + (a_x, a_y, a_z) . u + (b_x, b_y, b_z) . v}$$

$\Rightarrow$ 3 vgl + 2 onbekenden. lineair stelsel

In matrixvorm:

$$(x - p_x, y - p_y, z - p_z) = (u, v) \begin{bmatrix} a_x & a_y & a_z \\ b_x & b_y & b_z \end{bmatrix}$$

<u>bv</u>:

$$(u, v) = (x - p_x, y - p_y) \begin{bmatrix} a_x & a_y \\ b_x & b_y \end{bmatrix}^{-1}$$

Opletten: mogelyk maar één vd 2x2 matrices inverteerbaar

<u>bv</u>: $a = (1\ 0\ 0)$, $b = (0\ 1\ 0)$
dan $\begin{bmatrix} a_y & a_z \\ b_y & b_z \end{bmatrix}$ & $\begin{bmatrix} a_x & a_z \\ b_x & b_z \end{bmatrix}$ géén inverse
