

Clippen tot near plane : $z = -d_{\text{near}}$

$$S = p \cdot A + (1-p) \cdot B \quad \text{voor } p \in (0, 1)$$

$$\left\{ \begin{array}{l} p \text{ bepalen : } d_{\text{val}} = p z_A + (1-p) z_B \\ \Leftrightarrow p = \frac{d_{\text{val}} - z_B}{z_A - z_B} \end{array} \right.$$
