

Rotaties in 2D

x -as & y -as roteren over hoek ϕ

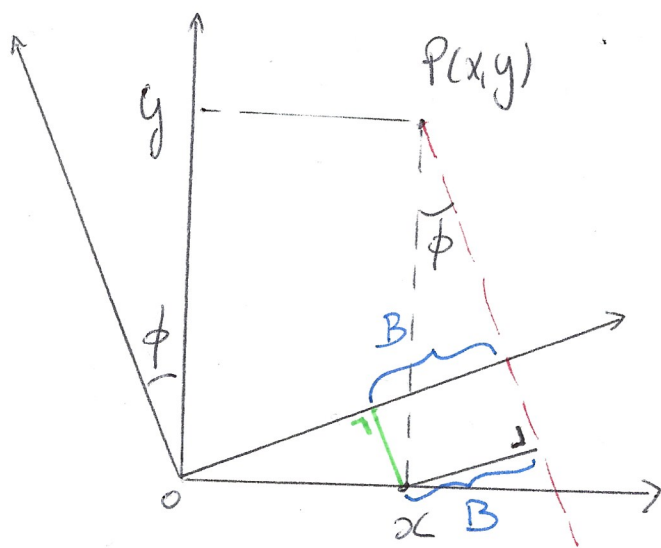

DOEL:
 $\left\{ \begin{array}{l} x' \text{ \& } y' \\ \text{uitdrukken} \\ \text{met behulp van} \\ x, y \text{ \& } \phi \end{array} \right.$

$$x' = A + B$$

$$A = x \cdot \cos \phi$$

$$B = ?$$

$$B = y \cdot \sin \phi$$

$$\Rightarrow x' = x \cos \phi + y \sin \phi$$
