

Operating Systems

[1500WETOPS]

José Oramas

Course Overview

[Some Guidelines]

José Oramas

Course Overview

[... or what we will be talking about during the coming weeks]

Overview of the course

▪ Theory Lectures

- Mondays 13h45 – 15h45, Room G 005, CMI.
- **Prof. José Oramas** → José Antonio Oramas Mogrovejo
(Jose.Oramas@UAntwerpen.be)

▪ Who Am I?

- Artificial Intelligence research at the Internet Data Lab (IDLab)
- Also teaching:
 - ~~Advanced Programming~~ (1500WETADP)
 - Distributed Systems (1500WETDIS),
 - Artificial Neural Networks (2500WETANN)

Acknowledgements

- The contents of this course are based on:

Opleidingsonderdeel:
Uitbatingssystemen

Benny Van Houdt
bureau G.222

Theory Lectures

- Session 1 Introduction & Processes and Threads
- Session 2 Cache Memory
- Session 3 Memory Management
- Session 4 Virtual Memory
- Session 5 Disk Management
- Session 6 Scheduling – Batch Algorithms
- Session 7 Scheduling – Real-time Algorithms
- Session 8 Concurrency
- Session 9 File Systems

What if I cannot come to the class?

Recordings of Lectures will be eventually provided via Blackboard

- Note this is mostly for backup purposes.
- Early access possible in exceptional circumstances

Exercise Sessions

Thomas Doms

Thomas.Doms@uantwerpen.be

■ About

- Tuesdays 16h00 – 18h00, Room M.G.005, CMI.
- Theoretical exercises complementing the lectures.
[Essential practice for the exam]
- Not every theory session is paired with an exercises session

Evaluation

[The annoying part]

Evaluation

- **Theory Exam (50%)**

- Content discussed in the lectures
- Written – close book
- No oral presentation

- **Exercises Exam (50%)**

- Questions similar to those worked on during the exercise sessions
- Written - open book (course related resources)

Evaluation

- **Theory Exam (50%)**

- Content discussed in the lectures
- Written – close book
- No oral presentation

- **Exercises Exam (50%)**

- Questions similar to those worked on during the exercise sessions
- Written - open book (course related resources)

To pass the course you need a grade of at least 10/20 on each exam.

Partial exemptions are only valid within the same academic year
